

Dual-Purpose Leveling Rack

The **All American SUN OVEN®** is equipped with a dual-purpose leveling rack which hangs from the threaded rods inside the oven and swings freely to prevent spilling. To install the leveling rack bend the side arms outward and place the rack on the threaded rods.

The dual-purpose leveling rack can also be set on the floor of the oven to increase the usable area inside the **SUN OVEN®** and allow larger pots or pans to be used. (It is important to note that pots and pans should be placed on the dual-purpose leveling rack, not on the floor of the oven. To cook evenly, there must be air flow all the way around the pot. The rack will allow air to pass under the pot and ensure an even heat.)

To fold the rack, bend the side arms outward and place them under the rack.
